

Join us today & be part of our dynamic team!

Support Services organises, supports and optimises production processes in the broadest sense. This includes IT activities such as designing & programming computer programmes, developing and commercialising them. Due to further expansion, we are looking for a:

Data & BI Specialist (m/f)

What tasks will you perform?

- ✓ You can **analyse and structure data** from various sources.
- ✓ You regularly perform **audits and tests** on the data in various databases.
- ✓ You are responsible for creating attractive **reports and dashboards** in various BI tools (Power BI, Cognos,...).
- ✓ You are part of the **IT team**, within the team you make the **functional & technical translation of the user requirements**. You conduct research and work out an **action plan**, which you will then implement and follow up.
- ✓ You initiate **conversations** with different levels within an organisation and **detect reporting needs**.
- ✓ After some time, you will work for several **external clients** where you will roll out similar activities.

Who are we looking for?

- ✓ You have a **Bachelor's or Master's degree in ICT** or in an **economics field** or you have several years of **experience** in the field.
- ✓ You have knowledge of **data modelling** in a data warehouse environment.
- ✓ You speak fluent **Dutch and English**.
- ✓ You have knowledge of **SQL and Power BI**. Knowledge of **other BI tools** is a plus.
- ✓ You are a **team player, communicative, stress-resistant and problem-solving**. You enjoy taking **initiative**. You bring a project to a successful conclusion within the planned timeframe.
- ✓ You are **collaborative** in order to achieve optimal and efficient working practices.
- ✓ You have an **analytical mind**. You can examine working methods at the internal/external customer and identify areas for improvement.
- ✓ You are **customer-oriented and listening**.
- ✓ You have a **driving licence**. Trips to customers in the future are a possibility.
